Senior Software Engineer

4+ years of experience as a Software Engineer at early-stage startups, where I've built scalable products with a focus on maintainability. Skilled at designing APIs, building component libraries, fostering cross-team communication, documenting processes and advocating for great user experiences.

WORK EXPERIENCE

Senior Software Engineer • Jul 2023 - Present
Shiba Inu • Remote
- Achieved 10x engineering communication improvement with AGILE methodologies, boosting productivity.

Frontend Engineer • Aug 2022 - Jun 2023
Polygon.io • Remote
- Led the transition of the component library to TypeScript to modernize and enhance developer efficiency.
- Constructed advanced UI elements, including data visualization charts with D3.
- Improved communication between all stakeholders to boost team collaboration.
- Collaborated in designing a Contentful-based system using Next.js 13 and Tailwind, accelerating product delivery.
- Advocated for and implemented Sentry.io, taking ownership of production bug resolution.

Full Stack Software Engineer • Apr 2021 - Jun 2022
Klary • Saint Louis
- Built the MVP using frontend and backend technologies such as React, SCSS, Redux, and TypeScript, and Ruby on Rails.
- Designed API structure and leveraged Neo4j and Cypher for efficient data storage.
- Designed and implemented a fully automated CI/CD pipeline.

Web Developer • Jun 2019 - Jun 2021
Xeragenx • Saint Louis
- Spearheaded the overhaul of the company website.
- Conceived and built a custom Ruby on Rails backend integrated with Webflow frontend system for seamless and efficient management of customer test kits reducing management time by 200%.
